How to Read These Sheets

GOLDEN RULE: Specialist agreement matters MORE than final rank. A #3 with a "wall of dark" often beats a #1 with mixed heatmap colors.

THE ENSEMBLE SYSTEM

This is NOT a single model. It's **10 specialist models** each analyzing different angles:

- **BASE:** Speed figures & class ratings
- **SHP:** Race shape & pace dynamics
- **FRM:** Current form cycle & trends
- **CLS:** Class level vs today's field
- **CON:** Jockey/trainer stats & patterns
- **PRF:** Historical win rate patterns
- **WRK:** Workout quality & fitness

A **meta-learner** combines all specialists into consensus rankings.

KEY COLUMNS

- **Rnk:** Meta-learner consensus rank (1=best)
- **PN:** Program number (saddle cloth)
- **Style:** E=Early speed, EP=Presser, P=Mid-pack, S=Closer
- **Win%:** Estimated win probability
- **ML:** Morning line odds
- **Fair:** Model's fair value odds estimate
- **Conf:** Specialist agreement strength %

READING THE HEATMAP

Each specialist column shows rank (1=best). Colors indicate strength:

- **Dark/black cells:** Ranks well in that specialty
- **Light/white cells:** Ranks poorly
- **"Wall of dark":** Strong agreement = high confidence pick

RACE SHAPE (PACE DYNAMICS)

Pace can override raw rankings.

- **HOT:** Multiple speed battling = pace meltdown. Closers benefit.
- **CONTESTED:** 2-3 speed horses. Moderate pressure, tactical.
- **COLD:** Limited early speed. Front-runners control tempo.
- **LONE:** Single speed, no pressure = massive tactical edge.

Collapse %: Probability speed tires. >50% = serious closer advantage.

ALERTS SYSTEM

Format: **Alert Name (W15% R+25% N=120)** — W=win rate, R=ROI, N=sample size

- **Green alerts (high W%):** Positive angles - strong workouts, hot trainer
- **Red alerts (low W%):** Concerns - layoffs, class drops, poor form

WHEN TO BET AGAINST THE FAVORITE

RED FLAGS: Low Conf% (<60%) • Mixed heatmap • E-style in HOT pace • Negative alerts

BET WITH CONFIDENCE

- High Conf% (>70%)
- "Wall of dark" heatmap
- Pace advantage
- Fair odds ≈ ML or lower

LOOK FOR VALUE

- Rank #3-5 with strong specialist agreement
- Fair odds >> ML (overlay)
- Pace scenario favors style

TREAD CAREFULLY

- Low Conf% with high rank
- Mixed heatmap pattern
- Speed in HOT pace

FINDING VALUE: Don't just bet #1. Look for high Conf% + pace advantage + Fair > ML + positive alerts.

Race 1

ANALYSIS

No track bias data

[FIELD] TOSS-UP: #5 and #7 virtually inseparable.

[CONFIDENCE] SOLID: #5 MASTER OF ARMS ranks top-2 in 5/7 specialists. Confident.

[VALUE] LOOK DEEPER: #3 EMERALD FOREST: ranks top-2 in Shape, Form, Workout; Form+Workout aligned | #6 STOP THE SPREAD: ranks top-2 in Form, Workout; Form+Workout aligned
